Delfin Amazon Cruises - Relais & Châteaux

Discover the secrets of Amazonia

Our 4-night stay onboard our cruises, rest assured you will get and unforgettable experience. All of our programs have been carefully crafted to showcase the best flora and fauna that the Marañon and Ucayali Rivers in the Pacaya Samiria National Reserve have to boast, along with offering ideal soft adventure excursions for travelers to further discover the secrets of the Peruvian Amazonia.

Although all activities are optional, we encourage our guests to tempt their adventurous side and choose among our big array of experiences, including: kayaking in the calm creeks and lakes, fishing for piranhas at sunset, skirting the riverbanks in search of playful creatures, birdwatching, trail walks, and visits to local communities to interact with the native people, and more.

High Water Season: From November to May

Low Water Season: From June to OctoberExplore your adventurous side.

Excursions

All excursions are included with your cruise rate. For all short transport (such as from the vessel to land for hiking) and wildlife seeking excursions, you will travel via skiff boats. Our skiffs are stable to ride and ready to navigate into the most hidden corners of the Amazon. Each skiff come with their own expert naturalist guide, captain, and features all safety regulations. Excursions and itineraries are dependent on natural and weather conditions and are thus subject to change. Non of these excursions are mandatory, you may always chose to stay on board and relax enjoying the views, a good book or meditating perhaps; you may also visit the bar, the gym or the spa, either way you will always be surrounded by wildlife and nature at its best.

Trail Walks

Nature like you have never seen before!

The Pacaya Samiria National Reserve is best appreciated in the early hours of the morning, when wildlife is most abundant and active. Trail walks at destinations such as Fundo Casual will take you deep into the

rainforest where your guide will point out amazing creatures and vegetation of the Amazon. A local native assistant may also accompany you in order to bring you closer to different animals such as frogs, snakes, and insects. These are light activities and we provide rubber boots and rain ponchos in case of inclement weather.

Kayaking

The Amazon waterways up, close and personal. Native 16" River Kayaks are available in all our vessels. These kayaks make for excellent opportunities to paddle smoothly and silently into small creeks, tributaries, and lagoons. They have been especially designed with durability and stability for fishing trips, meaning that in the calm waters of the Pacaya Samiria National Reserve you are able to gently row downstream. Each kayak seats 2 persons.

Paddleboarding

A different and fun approach to wildlife Paddleboarding, available on Delfin I & II, is an interactive and exciting way to discover the Amazon. And because of the calm, often ripple-less waters of the Pacaya Samiria National Reserve, it is an activity suitable for all ages. The coolness of the river water over your feet while you brush past the banks, eyeing wildlife, is an experience you do not want to miss.

Fishing

Exotic catches with an environmental approach. Fishing was never more exciting as in the lagoons and creeks of the Upper Amazon jungle, where you can encounter the mighty peacock bass, the gigantic awe-inspiring Amazon catfish, and other exotic sporting species while enjoying the comfort, security, and style of a Delfin Amazon Cruises experience. As part of our commitment to the environment, we exercise a strict policy of catch and release.

Pink River Dolphins

Meet these extraordinary creatures in once-in-a-lifetime experience. The pink river dolphin is a rare species found in the freshwater rivers of the Amazon near Iquitos, Peru. They are social, friendly and extremely intelligent creatures, and one of the highlights of a visit to the Amazon Basin. They also love the company of humans. If you're lucky, a Pink River Dolphin may playfully swim alongside your kayak or skiff. A snapshot of the pink river dolphin will definitely be one for your Amazon adventure scrapbook.

Birdwatching

Discover one of the world's most impressive diversity of birds. The Amazon is second to none when it comes to biodiversity, boasting over 1,500 species of birds —that is 20% of the total number of species on the planet! The Pacaya Samiria National Reserve is especially diverse having little human interference to disrupt the natural habitat. The expeditions set out early in the morning on the skiffs in order to see them at their best. Professional guides from the region and with a deep knowledge of wildlife will accompany you and answer your questions. Whether you bring your camera or just your memory, the experience will surely not disappoint.

Night Safari

A whole new world awaits you after dark. Exploring the jungle by day is only half the fun as the adventures continue past sundown. The sound of the jungle at night is intense, and unlike anything you have ever experienced. Looking up to the sky, the stars are so visible and dense, it is like peering through a window into outer space. The groups are led by our expert guides who will direct your attention to wildlife that often goes unseen. This is your chance to spot the black caimans, bats, frogs, and other nocturnal creatures. The night safaris are a very unique experience and one you will never forget.

Deluxe Master Suite:

The Delfin I has a capacity for 8 Passengers, up to 12 with full triple accommodations.

2 Master Suites. 2 Deluxe Master Suites with cool water whirlpool.

Dining area with a single table so everyone can share the dining experience (option available to have private in-room dining). Outdoor top deck lounge area with stocked bar.

- The inclusions in Delfin I are: all meals (arrival day: dinner, cruise days: all meals, departure day: breakfast) , non-alcoholic beverages, house cocktails, pisco cocktails, and house wines. All activities. Entrance fee to the Pacaya Samiria National Reserve, Transfer to/ from the embarkation port when arriving/departing on the recommended flights (all passengers are transferred together from the Iquitos airport).
